Do you want to be more involved in a decision-making group but not sure where to begin? Are you tired of feeling list or ineffective during meetings instead of feeling like an active member of a decision-making group? So many times we are on committees or in meetings but don't know what the process is or how to fully participate. This workshop will help you gain strategies to be able to navigate decision-making groups. This training was created to support families, educators, service providers, and other professionals serving on decision-making groups. Learn more about how to serve as a member of a decision-making group during this FREE training facilitated by Parent Information Center of Delaware, and Governor's Advisory Council for Exceptional Citizens.
